# AT WAR WITH THE UNIVERSE

## The British X-Files

State asset, *agent provocateur*, Nazi thug, Army Intelligence. Tim Hepple is all these, and above the law: assaulting policemen, inciting riots, operating inside Combat 18 (later claimed by his controllers to be an MI5 creation), setting up anti-fascists and fascists for attack, touting guns and explosives, attending & organising paramilitary training camps, framing political activists. He has never appeared in court for any of this, yet dozens were jailed. View his supposed Special Branch file--wiped cleaner than a Russian IMF Bank account.

After exposure in 1993, he disappeared, resurfacing 1995 as Tim Matthews, infiltrating Ufology. Most of this pamphlet (all 136 A4 pages) exposes Hepple/Matthews' present activities, after settling accounts with his past.:

**Hepple the Nazi thug:** His time in the BNP, C18, NF and Church of the Creator.

**Hepple's Modus Operandi:** How he infiltrates, steals documents, sets up dummy groups & frames individuals.

**Hepple's Victims:** How he helped set up Green activists in the multi-million pound GANDALF conspiracy trial.

Hepple's campaign to become *Fuhrer* of Ufology, and

Ufology itself come under the para-political microscope: yet another site of contestation ignored by the dying Left.

**Chopping and Changing:** He started off pushing the ET angle, and disrupting Ufologists who argue UFOs are secret military technology by using fake photos & smears. Then he abruptly adopted the military argument.

**Empire-building:** Faked sightings to set up his own front group, LUFOS; generating an array of dummy groups to gather names, addresses and other intelligence; infiltrating groups to get subscription lists; and inciting Ufologists to target military bases (sound familiar?).

**Promoting Nazi UFO Mythology:** We shoot down his preposterous and sinister claims that the roots of Stealth aircraft lie in Nazi technology (!).

**Storm-trooper Tactics:** Hepple/Matthews' response to questions about his past and present includes orchestrating mob violence, inventing fake murder plots, forgeries, intimidation and thuggery. Read all about it.

This pamphlet is not just about Ufology, but ongoing attempts by state agencies to interfere in more areas. That said, it contains all you could want to know about this intriguing phenomenon. Get saucer and triangle-wise!
