

Venality In Academia: The Case Of Dr Roger Eatwell, And A Public Statement By Alexander Baron

My name is Alexander Baron; I have been researching into the supposedly so difficult subject of Holocaust Revisionism with my limited resources and in a more or less ad hoc fashion since 1980. Over the past few years I have engaged in such research in a more systematic fashion, including the occasional visit to the Public Record Office, and, until I was banned, to the Wiener Library.

Holocaust Revisionism is not my main forte; of the several dozen publications I have churned out over the past few years - many of them overlapping - the theme that runs through most of them is the exposure of disinformation. Although I have no formal academic training whatever, I have made quite a fair job of textual analysis.

In 1991 I began researching the subject of anti-Jewish disinformation and propaganda, and more generally, anti-Semitic ideology, and have published, among other things, an exposé of the hatemongering of Eustace Mullins and a bibliography of the *Protocols Of Zion*. Being totally non-partisan I have also exposed lies and disinformation which emanate from Jewish and crypto-Jewish sources. I was naïve enough to believe that this sort of thing would be welcomed by the Jewish Establishment. They didn't welcome it, and I paid a heavy price. Now I intend to make sure that they too pay a heavy price.

In May 1993, after false, totally unjustified and quite malicious allegations were made against me, I was arrested under the *Public Order Act*. The two people most responsible for this were Mike Whine, the so-called Defence Director of the so-called Board of Deputies of British Jews, and a little shit of a journalist on the *Jewish Chronicle* named Julian Kossoff. The reader should note that I do not rail at Jews or Jewish conspiracies in the abstract but have named, and will name, specific individuals.

Whine in particular wilfully withheld information from the police, and thanks principally to his efforts the police held onto my property, including my computer, for six months. Also in that time, Whine referred me to the Attorney General for publishing a pamphlet which attacked his precious Israel. This was ignored by the Attorney General because even under the ultra-repressive "race relations" legislation that has been foisted onto this country by the lies and deception of Whine and his ilk, it is not considered an incitement to hatred under British law to ask Jews not to send money to buy bullets for the murderers of Palestinian children. Not yet, anyway.

Eventually, all my property was returned by the police and no charges were brought against me. I say all my property was returned, that's not quite the whole story, but it will suffice for now.

Not satisfied with his handiwork, Whine, and his hatemongering co-racialist Neville Nagler, included one of my publications in a booklet issued by the so-called Runnymede Commission on Anti-Semitism. Here it was described as an example of anti-Zionist rhetoric that is clearly anti-Semitic, and that in spite of its having Rabbinic approval. On February 4, 1994, the *Jewish Chronicle* published another smear article on me. This was published in the full knowledge that after a similar smear had been published in another Jewish-owned publication, I had been the victim of a mallet attack. Whine condoned this article, and indeed contributed to it. I consider this article to be, at best, an incitement to violence against me.

What have I done to earn the wrath of Organised Jewry? Two things: one is that I exposed, or rather, stumbled across, one of their prize assets, a prominent so-called fascist who is in reality no such thing. Another is that I have consistently exposed a Jewish-born con-man and hatemonger, and his organisation, as ruthless exploiters and indeed fermenters of anti-Semitism and racial hatred.

For legal reasons I cannot be more specific at this point in time. I will say though that I have definite evidence that Whine, the *Jewish Chronicle* and others have been engaged in a grubby little conspiracy against me. At one time I believed the Labour MP Greville Jauner to be a party to this; this was because people whom I had good reason to believe to be his agents have been involved in this affair up to their necks. It has subsequently become apparent to me that these two men, one of them a lawyer, have been acting without either his consent or his knowledge, and I now have concrete evidence that they are instead agents of a department of the Board of Deputies.

During the course of my researches into the Holocaust I corresponded with a number of academics, posing as an interested if ignorant member of the lay public. Which I am, except that I am by no means as ignorant as I led them to believe. I was amazed at the fruits this approach yielded, and have now decided to go public. I wish to make it clear that I had not intended to do this, because I realise that this information can be used for ignoble

purposes. The only reason I am doing so is because of the persistent, Machiavellian scheming against me by Mike Whine and his filthy little clique of Zionist Jews.

These are people who have not the slightest respect for truth, and nothing but the utmost contempt for the rest of mankind. They will lie with impunity about anyone who refuses to kiss the arse of Imperial Zion, and it matters not that the lies are both blatant and readily refuted. Furthermore, they are the enemies of all races, including of Western Man, but especially of their own. In June of this year the *Jewish Chronicle*, and indeed the national media, reported two outrageous acts of vandalism against Jewish cemeteries in East London and Humberside. By a remarkable coincidence, this was about the same time that Whine announced the setting up of a new so-called security organisation to combat the menace of anti-Semitism, an ideology that would not give anyone cause for concern but for the activities of him and his kind. One can only wonder how many shekels these acts of (apparently) senseless vandalism brought into Whine's coffers. It remains to be seen how many criminal acts which are apparently the work of anti-Semites are in fact the work of Zionist *agents provocateurs*. This is not innuendo but thoroughly documented fact which dates from the activities of the Zionists who organised a terror campaign against Jews in Iraq in the 1950s, and possibly a lot earlier.

Over a period of some months I received a series of letters from Dr Roger Eatwell of Bath University in which he as good as admitted to me that he does not believe in the Holocaust. Dr Eatwell admitted quite candidly, if after some pressure, that we, the public and historians, have been fed a constant stream of lies about the alleged gassings in the camps, and much more.

Two other academics I contacted were even more candid; I will not give their names because I gave each of them an undertaking, and, unlike Whine, honour means something to me. One of them told me that he believed the stories of mass gassings to be the biggest load of old bollocks ever invented, and told me that it is well known if never mentioned that the Communists in particular have forged countless documents attesting to the truth of the Holocaust, including much perjured witness testimony. Many other Gentile academics are of this opinion, and indeed, one or two Jewish ones have their suspicions, but they too are afraid of rocking the boat, and in particular of having their funding cut off under pressure from damned liars and hatemongers like Mike Whine.

Another, a Moslem academic, told me that the Holocaust is a joke throughout the Islamic world, that no Moslem academic in his right mind believes in it or has ever believed in it, and that the only reason such organisations as the PLO pay lip service to it is to avoid misinterpretation, in particular being smeared as anti-Semites.

Ironically, although I have never taken the gassing claims seriously, my own researches have recently led me to question some of the Revisionist interpretations. Certainly I believe now that a great deal of unauthorised killing went on in the camps, probably all the camps. The question of whether there were any gassings at all, albeit on a small scale, I have not yet resolved. I certainly believe this to have been possible; the Jewish Holocaust Revisionist David Cole has concluded that there were indeed a number of such gassings, though not at Auschwitz.

Be that as it may, I have seen the sort of slime Mike Whine and company are, the depths to which they will sink, and the way they and their fellow travellers have exploited and continue to exploit this most tragic period of human history for the basest of motives. I know from personal experience the lies they tell, and the way they exploit anti-Semitism to give spurious credence to these lies, in particular by instilling fear and loathing in the *goyim*. It is for this reason, and only this reason, that I am spilling the beans. Any anger persons of Jewish origin may feel at the accompanying publication should be directed not at myself but at Mike Whine, the *Jewish Chronicle*, and their fellow conspirators, who include partners in two leading firms of London solicitors.

This leaflet was written by Alexander Baron and was published, printed and distributed in the United States of America by his authorised agent. For legal reasons this leaflet cannot be distributed in the United Kingdom, and any such distribution is carried out against my wishes and without my authority.
