

## ***The International False Rape Timeline***

### ***- hangout (44) - The Back File***

**This is what it sounds like. The following notes are not in strict chronological order.**

**I mentioned Rape Crisis Scotland sending a couple of their mischief-makers to Cyprus re that controversial case last year.**

**I discussed the case of Danielle Perrett and compared her accuser with Frances Andrade.**

**I discussed the recent on-line event held by Liam Allan, and compared his case with that of Harvey Weinstein.**

**I took Julie Bindel to task big time covering the way she and her lover Harriet Wistrich canonised prostitute, serial false rape accuser and murderess Emma Humphreys.**

**I covered a case reported recently of a woman who was attacked by five reprobates in the small hours as she walked home through a South London park and managed to fight them off. Real victims fight back!**

**I covered the case of a police officer accused of raping a drunk woman, and a couple who should have known better than to have sex with a woman for dropping a traffic ticket.**

**I discussed various cases including my two recent failed FOI requests and the misadventures of certain police officers.**

**I mentioned the three recent videos made by the Timeline: one Jimmy Savile, another on Jim Hopper, and the latest on Emma Humphreys.**
