

## ***International False Rape Timeline – hangout (62) – Looking Back From 2022***

**The first hangout of the year, again pre-recorded due to the content. I began with some small talk then discussed a plethora of cases:**

**probably smears on Martin Luther King – contemporaneous smears**

**the claim of one of the jurors in the Ghislaine Maxwell trial – including childhood amnesia and related issues**

**an Indian bishop cleared of raping a nun**

**the Russell Bishop case and the lies his supporters spread about the family of one of his victims**

**a woman convicted of “grooming” a 15 year old boy**

**a number of cases of police officers accused of everything from having consensual sex with women they met through their work up to serial rape**

**a falsely accused soccer player**

**the certifiable nutter who has made historical allegations against Bob Dylan**

**Holmes – and her pathetic attempts to pass the buck to her co-conspirator**

**date rape drugs – not necessarily used to facilitate rape**

**other celebrity allegations**

**a nutter named Louise Badman.**
