

International False Rape Timeline – live hangout (71) –

Open House II

This hangout, only the second live one since March 2020, included quite a lot of off-screen dialogue which unfortunately could not be captured. I have yet to master StreamYard.

It was recorded from 1am (London time) on October 8, 2022, edited to remove the first few minutes and add titles then re-uploaded, to my dedicated False Rape channel. After I began the re-upload I noticed I had omitted the word “live” from the title, not that this matters, it will go into the *IMDb* as simply *Open House II*.

I began with a mention of Rolf Harris, who continues to be demonised by the media. I revisited the Landen Gambill case, which was discussed by Yours Truly at the time, before the False Rape Timeline was set up. I have literally just added these two articles to my main website.

I discussed the latest whine from Rape Crisis UK and the latest CPS public consultation on rape. A ludicrous case of flashing from South East London. Various false rape and similar cases, old and new, were discussed, from both sides of the Atlantic including the second conviction of serial false rape accuser Cathy Richardson and one of the women behind the manufactured Andrew Cuomo scandal.

The ludicrous David Pattison case was discussed although I couldn't remember his name. We also discussed the weaponisation of false allegations by women including the Amber Heard/Johnny Depp case. I also revisited *Operation Yewtree*.
