

## ***International False Rape Timeline***

### ***- live hangout (16) - Consent Issues***

**A discussion of consent issues, real consent issues rather than feminist fantasies.**

**I began with a discussion of some recent news including the Julian Assange case and Sally Challen. I've made a video about this latter case - "*The Truth About CONVICTED MURDERESS Sally Challen*". I also discussed the perfidy behind it, in particular the corrupt lawyer Harriet Wistrich.**

**I discussed date rape/regret sex citing real cases to prove the point. Check out too the earlier live hangout about the three D's of false rape allegations: drink, drugs, and delay.**

**No doesn't always mean no, but yes doesn't always mean yes. This applies not only to sex.**

**Consent in situations other than those involving sex.**

**I discussed corrupt police officers including a brief mention of the Daniel Holtzclaw case and the petition nobody signed.**

**The pernicious influence of Catharine MacKinnon, and the antidote - an interview with the amazing Camille Paglia.**

**I read out my unanswered correspondence concerning the misleading claims about rape by Rape Crisis Surrey & Sussex. I also covered the recent ludicrous report on rape from Denmark.**

**The Christian Newman case. This is interesting. And another clear case of regret sex. Julie Gavin - regret sex with two strangers. Just like that!**
