

## ***Live Hangout Number 27 - The Grand Conspiracy***

**There was a typically poor turn out. Back to Thursdays next time!**

**The hangout began with my going over some recent news stories.**

**Allegations against Cuba Gooding Junior and Matt Lauer.**

**An anonymous allegation of a woman who claimed to have been groomed from the age of eleven. In reality she was a teenage prostitute who made bad choices.**

**The odious Harriet Wistrich calling for the abolition of jury trials. I sounded off at her and her lover Julie Bindel. They can be found on the Timeline under the entry for their prize catch Emma Humphreys.**

**After that I traced the Grand Conspiracy from the Order Of The Illuminati down to the present day pointing out that conspiracies such as those claimed by certain elements of the sexual grievance industry cannot exist under so-called liberal democracy.**

**I gave some general background including the mindset of people who spread this rubbish.**

**I covered some genuine cases of sexual depravity and murder on a grand scale: the Blood Countess, Gilles de Rais, and in our own day Bittaker & Norris, Kenneth Bianchi & Angelo Buono.**

**I covered the role of social media in promoting this nonsense, and how the exculpation of the innocent is misrepresented. I mentioned the Satanic panic and also covered some genuine examples of paedophile rings: the Little Ted's case, Peter Righton and Charles Napier.**

**I covered Ted Gunderson and the rubbish he promoted, then the ludicrous VIP paedophile ring explaining how it was based on rubbish from the 1980s that was rehashed by Carl Beech. I played a short clip of Harvey Proctor - on the Timeline at August 25, 2015.**

**I covered Edward Heath explaining why these allegations against him are so absurd. In that connection I played a clip of Gabrielle Shaw, who can be found on the Timeline under the entry for NAPAC.**

**I covered *Elm Guest House* in some depth and how the notorious list came about.**

**I played part of a clip of Harriet Harman being interviewed about the Paedophile Information Exchange. And found myself defending her!**

**I mentioned the Brighton Beast case and the Government's refusal to ban the Paedophile Information Exchange, and the possible role of Sir Peter Hayman in its destruction.**

**I finished with a mention of the Jeffrey Epstein affair in the United States, and similar.**
