

International False Rape Timeline

– hangout – (106) Open House III

This was streamed live from 11pm London time on April 12, 2024 and made public the following afternoon after editing. The turnout was disappointing, to put it mildly.

I begin with some general talk about my personal circumstances and other work, my main YouTube channel including the problem of shadow banning, which isn't just on YouTube. I go on to discuss some cases in the news, including Harvey Weinstein who is on trial yet again. I allude to the researches of Jay Raskin re the Bill Cosby witch-hunt, and how rape crisis centres on both sides of the Atlantic encourage women to make false allegations of rape. I mention *en passant* John Leslie then go on to the Epstein case including (false) accuser Elizabeth Stein and of course the odious Virginia.

From there I cover the claims of the YouTuber known as Stef The Alter Nerd, whom I am inclined not to believe. At this point I was joined by a dude I might call a fan and enter into a discussion with him that lasts for the rest of the hangout. I contrast the Stef case with that of Alicia Wade. I also discuss confabulation and childhood amnesia.

I go on to discuss the P. Diddy/Sean Combs case and the truth about sex trafficking. I end with a brief mention of another American case which is still in the news and a whine about the poor turnout.
