

International False Rape Timeline -

live hangout (19) - It Can Happen To You Too, Ladies

I began the live hangout with some news and comment including about Liam Allan's forthcoming meeting. I also covered his absurd rape case, and very much in the news the acquittal of Oritsé Williams.

I covered the age of consent briefly, in an historical context, then the Channel 4 TV series *Sex On Trial*.

After that I mentioned how common are false allegations - all manner of false allegations - including genuine mistakes.

After that I covered the lunatic Cathy O'Brien, false allegations against Kelly Michaels - a child sexual abuse case, Tonya Craft, ditto, including parental alienation syndrome, Amy Partington - a girl, and historical cases generally, the attack on statutes of limitations. Maggie Kirkpatrick - the falsely accused Australia actress. The San Antonio Four case. I ended with an appeal of sorts for Marie Black.
