

False Rape Timeline live hangout - (26) - The Sexual Grievance Industry

The live hangout began at 10pm, September 26, 2019, London time. I covered a lot of ground in addition to the designated topic, mainly news, but with some overlap.

I covered some real rape cases including one in which a teenager fought off a much bigger attacker who might well have murdered her.

There were also stories about drug-facilitated rape; ludicrous scare statistics; the return of Louis CK; drunken women making false allegations.

I covered the Rape Crisis Network including Women Against Rape, trashing their counselling and therapy rubbish. I covered the attack on statutes of limitations. In that connection I related the case of Graham Dawes from the Timeline.

I also mentioned briefly false allegations against Donald Trump and Bill Cosby. Professional victim Zoë Quinn gets a mention as does Old Hag Syndrome - a telling juxtaposition!

I played a short clip of the falsely accused dentist Jose Turcio.

I went into more depth about Women Against Rape and their damned lies. I discussed the Rhiannon Brooker case in some depth - their lies versus the official findings of fact.

I covered the activities of Harriet Wistrich and Julie Bindel, also lawyers and law firms who are part of the sexual grievance industry, in particular Leigh Day in the UK, Gloria Allred and her daughter Lisa Bloom on the other side of the Pond.

I read from the judgment in Jennifer Day.

I played a small part of a clip by mangina academic David Lisak. And how could I omit the dishonest screeds of Lisa Avalos?

The Women Against Rape meeting at the Palace of Westminster was a wonder to behold!

Alyce LaVoilette at the Jodi Arias trial was even more incredible. Incidentally, there was never any evidence that Travis Alexander ever struck Jodi Arias.

I played clips from both of the above.

Finally, I made a mention of Kiwi head case Louise Nicholas.
