

HOLOCAUST DENIAL, NEW NAZI LIE

Over the past few years the subject of Holocaust Denial has become a political hot potato. Charges of conspiracy by lunatic anti-Semites and of Nazism and rewriting history by mainstream academics and anti-fascists have been tossed around with gay abandon. But is this subject really so controversial, or are simply being taken for a ride by con men and liars?

Now, you can read the true, unjaundiced facts about the men who are rewriting history, how they are doing it and why they are doing it. Published January 15, *HOLOCAUST DENIAL, NEW NAZI LIE* is the result of 14 years ongoing research. Chapters include:

How Can Anyone Deny The Holocaust?
Who's Accusing The Jews Of Fabricating The Holocaust?
How Propaganda Is Manufactured
Innuendo And Lies
An Eyewitness To Genocide
The Revisionists And The International Nazi Conspiracy
More Holocaust Liars Exposed
How Holocaust Revisionism Should Be Dealt With

And much more. Written by anti-fascist researcher Alexander Baron, the strength of this book is that it is researched entirely from the public domain and condemns the liars out of their own mouths. 179 pages, illustrated and indexed, this is a vital weapon in the armoury of all who seek to distinguish fact from fiction, fantasy and outright fakery.

High Praise Indeed

Gerry Gable, editor of the internationally respected anti-fascist magazine *Searchlight*, is regarded as one of Britain's leading experts on the far right, but it is no secret that there is no love lost between him and the author, indeed, the two are at this very moment engaged in acrimonious litigation. But in such high regard does he hold the researches and analyses of Alexander Baron that as soon as he was informed of the imminent publication of *HOLOCAUST DENIAL, NEW NAZI LIE*, he ordered three advance copies.
