BRITAIN'S POLICE: NOT WORTH A JEWISH FINGERNAIL

£2.99

In recent years, Alexander Baron has been smeared from pillar to post as a hateronger by Organised Jewry simply for campaigning against a Jewish liar, hateronger and con-man, and for questioning the perceived versions of recent history. In April 1995, his investigations revealed that public money was being used to incite the murders of police officers and judges, so he appealed to Organised Jewry to use their considerable influence to put a stop to this hatred and have the evil-doers prosecuted. Partly on account of this, two powerful Jews tried to have him thrown into gaol! In this minutely referenced study he documents the lies and hypocrisy of Organised Jewry, how their wire-pulling and duplicity is used to subvert the rule of law, how they manipulate the police into doing their bidding, and how they don't give a toss about anyone but themselves. Shocking, outrageous, and essential reading for police officers, social policy makers, and everyone who is concerned for the survival of both liberal democracy and Western Man.
