

*** The Member's Listing ***

We have recently introduced the enclosed "simplified" application form, which still does supply us sufficient data to compile "members listings" but the less specific data means that the "New Member's" listings can't contain quite as much information as is the case with current members.

Because of the Easy-to-Complete format of our current Application form we now have to "interpret" some of the information supplied. (rather than our past method of simply "copying" from application-questionnaire to listings).

THE FIRST LINE of each member's listing shows their membership number and a list of numbers which describes themselves.

THE SECOND LINE indicates their primary "club" areas of interest - sex, occult, S&M etc.

THE THIRD LINE shows those (general) activities which most DIS-please the member. (& people = explained in "Voluntary Questionnaire" documentation - sent to all members upon joining).

The main differences between the two forms of listings is that by completing the "Voluntary Questionnaire" the new member would be providing us the additional information necessary for us to be able to specify the kind of people they would NOT like to meet (from Category List "C")

PLUS - the member would directly "specify" those numbers to be included in the member's listings, thereby removing the possible risk of us misunderstanding the information supplied in the new Application Form.

.....

As stated elsewhere - but worth repeating, the new member will receive a "Complete" list of "Number Codings" to supplement the partial list shown in the Application Form.

This "Complete Sections Number Listing" would be needed for TWO purposes (1) for the member to be able to understand the information supplied by members who have completed the comprehensive "Voluntary Questionnaire", and (2) for the new member to be able to understand the "Full-Data" listings (on each member) which are available to him/her.

Overleaf is shown an example "member's list" and most members shown HAVE completed the "voluntary questionnaire", but member F8291 decided not to and this fact is indicated by (A) the slightly "different" format of her listing PLUS (B) the addition of a "\$" sign before her number.

It might be helpful for you to compare her listing with the sample application form enclosed.

The addition of the "\$" before the membership number of F7791 indicates that this member opted for "Associate" rather than "Full" membership.

.....

Much of this explanation will become self-evident when you receive the "New Member's" Initial Data Package, upon joining the club.
