I?m actually reading it.

**My first opinions of that book is that I didn?t have words to
describe how I was feeling**

**about that book. I found her story extremely interresting and I think we
should be more**

**aware of that historical and sad events of our history. That novel really
touch me and I must**

**admit that I dream sometimes about it. When I saw your text I was
desapointed because I**

had beleve in this story.

**??Just as curiously, she is not mentioned at all in the 1958 book by
Rabbi
Leslie**

Hardman. THE SURVIVORS: The story of the Belsen remnant??

I have some questions to ask you and its very important for me. Do you think all of the story isn?t true? Maybe you think that its only Norman Turgel that made up stories that he arrested more Nazis that he actually did. You are telling me that she is say to not be on the survivors list from Belsen. You think she lies from the beggening to the end? Or its maybe just the date that didn?t fit in. I think that maybe the story about Anne Frank isn?t true because it?s a stange thing that they were in the same barrack. Please tells me what do you think? Do you think that everything in that book is lie or do you think there is some truth in that book.

Thank you for your time. I want you to know that its very important for me. I hope You will write back and thanks again.

Yours sincerely,

M**-P*** D*******
