### Introduction

The curious document you are about to read was smuggled out of a meeting in Southall by an Indian doctor who had infiltrated the outer circle of the High Council of the Karachi Club. He was working undercover for Maxwell Communications in collaboration with Michael Grade and Channel Four Enterprises. Since we triumphed over the Hitlerites and dispensed summary justice at the Nuremberg show trials, we have been firmly in control. At least, I thought we had, but, growing within our midst, has been the slow, but ineluctable cancer of Paki-itis. In truth, our Pax Judaica is being usurped under our noses by a Pax Madras. And who do we have to blame but ourselves? We were so obsessed with pushing race-mixing and forcing the hated Nordic race to extinction that we have allowed our business interests to take second place, and now we are in the middle of a management buyout. In short, the old order changeth, and the *New World Order* is rapidly succeeding us, Khan and Dar are in the process of eclipsing Rothschild and Warburg.

The only way to salvation lies with the temporary suspension of race-mixing activities and the re-establishment of Semitic financial hegemony. In short, we need more Alan Sugars and fewer Neville Naglers. Read this document carefully, for it lays out the game plan of the enemy. Read, study, and learn, because knowledge is strength, and those who cannot remember the past have no future. Let us make sure that this is the fate of the Nordics, and is not shared by us.

## THE PROTOCOLS OF THE LEARNED ELDERS OF PUNJAB

### Protocols of Punjab - in 24 parts

1) Putting aside fine phrases, we shall speak of the meaning of each corner shop. By double-dealing and chicanery, we shall buy up the entire high street of every town and city in Britain.

2) It is indispensable for our purpose that we obtain control of wholesale outlets. We shall invest heavily in Brick Lane and Middlesex Street thereby displacing the Jews, who will in any case continue to take the rap.

3) To-day I may tell you that our goal is now only a few steps off. We already own half the small retail outlets in Britain, besides which every Indian restaurant and purveyor of halal meat is already in our hands.

4) The role of speculation in our acquisition of the electronics trade cannot be overstated. All down London's Tottenham Court Road, Patel and Mohammed have displaced the shopkeepers of native stock. When we have obtained a total monopoly, as with gold, the British will be like putty in our hands.

5) We must send forth our finest brains into the universities and in particular the government. We must capture the race industry so as to preempt the niggers and displace the yids who are already whining about the next pogrom.

6) We shall soon begin to establish huge monopolies; we are half way towards that goal, but the takeover of the banks will be a little tricky. We can accelerate the process by refusing to patronise non-Indians.

7) It will be necessary to increase the power of the police, especially when skinheads go on the rampage in Welling. This will best be achieved by encouraging the liberals and race-mixers among those of native stock to lobby for stronger laws against incitement, which will mean anything we want.

8) We must employ judicial rights ambiguously - right, after all, is might. Any support by any of the whites for apartheid or for any kind of separation must be vigorously and hysterically attacked, whilst at the same time institutions which strengthen the bonds of our countrymen must be rigorously preserved.

9) "Liberty, Equality, Fraternity" are hollow slogans. They will be mouthed like the platitudes they are while all the time the symbolic snake of Paki-ism tightens around Europe.

10) A scheme of government should come ready-made from one brain. Relentlessly we have pursued the infiltration of British society, carefully masterminding the expulsion of the Uganda Asians through our puppet Amin. Anti-Paki-ism is a binding force throughout the Indian *Diaspora* and helps to keep the little Pakis in check and our coffers full.

11) The British are a flock of sheep; never in history has a race been so eager to legislate in favour of its own destruction. We will keep turning the screw by whining and wailing over every incident of verbal abuse or swastika daubing in Southall and thereby deliver more and more taxpayers' money to the cause of miscegenation, which is strictly for the whites and the niggers. The Jews are already virtually assimilated, and are in any case so confused that half of them are in the forefront to abolish the state of Israel in the specious cause of Palestinian self-determination.

12) Freedom is the right to do that which the law allows. He who controls the law controls what will be allowed. Our control is indirect but subtle. The sacking of BCCI and the subsequent evasion from prosecution of all parties proves that the day of the Rothschilds is over, and the era of Madras is upon us.

13) The need for chapatis forces the natives to patronise our restaurants. Between them and Mr Patel's corner shop we have them over a barrel. In any case, we have already bought up most of the Christian bakeries in the London Borough of Islington. We rise like yeast.

14) When we came into the Kingdom it was desirable that we receive National Assistance. Now that we have erected temples and mosques the length and breadth of the land, we lobby for Islamic blasphemy laws to silence forever apostates such as Salman Rushdie, and Hindu blasphemy laws, so that our cows may be sacred as well as holy.

15) When we at last definitely come into our kingdom, we will punish by death any manifestation of anti-Paki-ism. The National Front and the British National Party will be banned, and any individual who commits a breach of the New Order will be ruthlessly sacrificed.

16) When we have captured the universities, we will prepare their officials and professors in conjunction with our secret programmes. They will be appointed with special precaution so as to be wholly dependent upon the government.

17) We have long past taken care to discredit the Christian religion, which will give way to that of Mammon. We will indoctrinate the next generation of white schoolchildren so that they will be the last. They will denounce their own parents and will interbreed with the spawn of Africa.

18) Disorder and conspiracy will be the orders of the day. The inner cities will be wrought asunder by rioting congoids, who will take out their resentment first and foremost on whitey. Those of our brothers whose corner shops and sub post offices are torched in the coming conflagration will in any case be compensated out of state funds.

19) Sedition-mongering is nothing more than the yapping of a lap dog at a garuda. We will stamp out ruthlessly any that raise their voices in anger. In order to destroy the prestige of racial integrity for the remaining whites we shall send it for trial in the category of thieving, murder and every abominable and filthy crime. Public opinion will then raise miscegenation to the highest ideal as it has with the likes of Frank Bruno and Chris Eubank.

20) To-day we shall touch upon the financial programme. A steadily increasing graduated income tax must be foisted on the natives. We will naturally be

able to compound our wealth tax-free by remitting it to our cousins across the seas. Any tax investigations will in any case be quickly suppressed by cries of racism from our people (and our dupes) in the race industry.

21) Internal loans are to be levied through the established process of credit-creation at interest through the banking system, which will soon in any case be in our hands. Riba, which is outlawed under Islamic banking, will continue to force escalating taxation. A portion of our enormous profits will be diverted to leftist movements under the guise of fighting racism and furthering the class struggle, but in reality to suppress alternative economics which have dared to manifest themselves through the National Front and such media as Social Credit and the LETS system.

22) Our accumulation of wealth and the war against the British middle classes assures our success. Our authority will in the end be glorious and all-powerful. Especially when the last white woman has passed child-bearing age. This will of course include the Jews.

23) Reduction of luxury items is a necessity on the grounds of fighting the recession which we have in any case created by hampering the free flow of credit and the abolition of a cheap money policy such as prevails in war-time.

24) I pass now to the method of instigating the Khan and Rani. We will campaign to discredit the British Monarchy by a series of sex scandals. The press will whine, wail and bark like the lapdogs they are. Eventually the abolition of the House of Windsor will be welcomed by the masses of the common people, whereupon we will install our King and his bride on the throne by proxy.
