

# FLY THAI

*Where can you trek through the jungle, ride a rice barge, a bicycle or an elephant, stay at a three hundred room hotel equipped with international restaurants, tropical garden, swimming pool and a conference centre? Thailand.*

"Exodus Expeditions" based in Balham, South London, are the UK representatives of 2010 Travel - Bangkok.

The company offers a number of Thai tours including a 15 day bicycling tour along the backroads of Northernmost Province and the Golden Triangle and a 15 day elephant safari, river rafting and jungle trekking expedition. There are shorter, less strenuous breaks too; how about 5 days and 4 nights under the shade of palm trees and

the crystal clear waters of Ban Phae? Prices vary but the "Classic Thailand Expedition" starts from around £600.

If you are more inclined towards relaxation than adventure, why not spend your holiday in Bangkok? A city of outstanding beauty, the Thai capital has gardens, golf courses and over 400 temples.

"Royal Orchid" economy class flights depart from Heathrow to Bangkok daily on 747s; all passengers receive complimentary cocktails, gourmet meals and a fresh orchid corsage!
