

Conceived and designed by Marks Barfield Architects

Brighton i360

Brighton i360 is the world's tallest moving observation tower, located in the heart of Brighton's seafront at the site of the historic West Pier.

Glide up above the bustling Brighton beach for a unique vista of the city. As you reach 450 feet your 360° view stretches out for 26 miles across the city, the Downs and the South Coast.

At ground level, our visitor centre encompasses a 400 seat brasserie, hospitality spaces for 10 to 800 and a shop and tea rooms.

This iconic new visitor attraction is brought to you by the team that created the London Eye.
