Petition to

[Bill Cosby](#)

Why this petition matters

Started by [Julia Trigila](#)

Why have testimonies and prime witnesses if people can lie? Therefore if victims of crimes are still alive and especially in the case of 15 woman publicly state that that Bill Cosby raped them at any point in time, then they are still alive to testify and it should be taken as seriously as anyone who speaks in any criminal case or trial. Why is it that the statute of limitations are not allow in certain cases based on overwhelming testimonies? To say he's guilty is a jump but to say these 15 woman are all lying is a big jump as well. This really needs to be investigated further and not tossed out due to time so a possible serial rapist is free to continue raping innocent women. Laws are too sepcific especially certain statues. If these woman were lyign why didn't they come forward before the statute of limitations expired? What does Janice Dickinson have to gain? This should not be let go of lightly. I feel a judge

is in place to make the right legal decisions and I'm tired of hearing oh well, that's the law. I know it's screwed up but we can't go against the law. Law have been broken and laws are changed. As time goes on we have to update our stystem and we have to update so people can't take advantage of it as well.
