

Eric Hardcastle INVESTIGATES

The truth about this modern world

Blatant Lies with legal support

This is **Liz Dux** of the Australian law firm **Slater & Gordon** now with offices throughout Britain, Slater & Gordon & Dux are cashing in on the endless accusations about elderly celebrities -even dead ones where they have never been charged and the claims about them never proved. Dux is currently stripping the estate of the late **Sir James Savile OBE** who left around £3M to the charity [Help4Heroes](#) which aids the families of disabled war veterans.

That's *real live children of today* who will receive nothing from Savile's estate- not the 60/65 year old women who are claiming they were abused by Savile but usually referred to as "children" in the media.

There is a problem though with Dux who is posing in this photo with **Eammon Holmes** host of the 'This Morning' TV show on which she appeared today. In the background is the **Vigilante In Chief Mark Williams-Thomas** (once prosecuted for blackmail) who claims at the age of 44 that he has had "*nearly 30 years in child protection*" and deliberately distorts his **Surrey Police** career where he was a uniformed PC for nearly 9 years and a detective for just 5 months before leaving under a cloud.

Dux brought to the show an un-named "victim" allegedly of Jimmy Savile as they 'celebrated' 2 years of the Hit & Miss crusade **Operation Yewtree**. The claimant says

she had been assaulted by Jimmy 'several times' in **the BBC Television Centre** (in White City) during filming of the **Top Of The Pops** programme in 1967/68.

The problem here is **Top Of The Pops** was *filmed miles away* at **Lime Grove Studios** (in Shepherds Bush) until BBC1 went colour in November 1969.

Eight women also accused comedian **Jimmy Tarbuck** of molesting them at **BBC Television Centre** when he appeared on **Top Of The Pops** in 1963. Unfortunately for those false claimants **Top Of The Pops** didn't start filming *until 1964*. Jimmy Tarbuck *never appeared* on Top Of The Pops which was filmed at Manchester in 1964 to the end of 1965.

How about donating your Savile fees to this charity Liz !

The other glaring problem with this "celebration" : the claimants on the dodgy "**Exposure**" tabloid TV show that ignited the claims about Jimmy Savile all claimed they were abused during shows filmed at the **BBC Television Centre** just like Ms Dux's "victim" with one detailing the "*long corridors of the BBC TV Centre*". Indeed the "long corridors " were quite famous and mentioned numerous times by comedians and interviewees in the **TV Times** and so on, like a bit of a standing joke.

The other standing joke is that Jimmy Savile's TV shows *were not filmed* at the BBC Television Centre , rather the **Empire Theatre** in Shepherds Bush, now the **O2 Theatre**.

Left to Right : Lime Grove Studios & Empire Theatre in Shepherds Bush & BBC Television Centre in White City

Don't believe me of course- the BBC record's department will confirm these inconvenient facts as will dozens of former employees (like me- a security guard at the BBC TV Centre).

Truth and evidence are not mutual requirements when Dux & Williams-Thomas are on their crusade and Witch Hunt.
